## RSW Partnership

Our professional service provides the project resource that is often missing between executive direction and project implementation.

Our tailored packages manage and deliver bespoke projects of any scale, relieving the burden on internal resources and helping control budgets.

## Our Offer

RSW Partnership will provide a “professional” and “cost effective” suite of services tailored to manage and deliver a client’s bespoke project requirements.

We will work for, and represent, the client thus releasing internal resources to focus on core business.

RSW Partnership will assist the client to manage risk and maintain auditable legislative compliance.

## Our Services

We assist companies by managing facilities projects (such as relocations, new builds etc.) providing a cost effective and short term professional resource and unburdening valuable internal personnel.

We also help organisations to achieve and maintain corporate compliance for quality systems & processes including legislative requirements (such as Local Authority Planning).

## Our Expertise

Facilities relocations, moves & changes.

Project & programme management.

Client representation & support.

Professional & bespoke services.

## Working Relationship and Programme Delivery through Quality Systems

Executive consultancy, strategic feasibility studies, resourced programme management and project implementation
